

EL YESO RESERVOIR, EL PLOMO HOT SPRINGS AND TREKKING TO LAGUNA DE LOS PATOS

This expedition is a very attractive route at Cajon del Maipo, where the first stop is the El Yeso Reservoir, which is a large reservoir of fresh water, turquoise intense.

We continue toward the Park Valle del Yeso, entrance for El Plomo Hot Springs. Here we find a high mountain landscape, surrounded by snowy peaks and glaciers. The thermal water pools are at 3000 meters high, with approximately 22 ° C temperature and possibility of bathing.

From there, we started trekking two hours, low difficulty to get to the beautiful Laguna de los Patos, clear water on top of the mountains.

A DAY FULL OF CONTACT WITH NATURE AND SPORT IS WHAT WE OFFER YOU IN THIS PROGRAM!

Meeting: Bustamante Park, metro Baquedano

Bring: Water, snacks, comfortable clothing for walking, jacket, gloves, hat, sunscreen, sunglasses.

Includes: transportation, full time guide, park entrance.

35.000 per person

Minimum 5 people
